

# Low Reserve Condition Report

October 2025

WEM Low Reserve Conditions for 6 Month Interval  
1<sup>st</sup> April 2025 to 30 September 2025

**We acknowledge the Traditional Custodians of the land, seas and waters across Australia. We honour the wisdom of Aboriginal and Torres Strait Islander Elders past and present and embrace future generations.**

**We acknowledge that, wherever we work, we do so on Aboriginal and Torres Strait Islander lands. We pay respect to the world's oldest continuing culture and First Nations peoples' deep and continuing connection to Country; and hope that our work can benefit both people and Country.**

'Journey of unity: AEMO's Reconciliation Path' by Lani Balzan

AEMO Group is proud to have launched its first [Reconciliation Action Plan](#) in May 2024. 'Journey of unity: AEMO's Reconciliation Path' was created by Wiradjuri artist Lani Balzan to visually narrate our ongoing journey towards reconciliation - a collaborative endeavour that honours First Nations cultures, fosters mutual understanding, and paves the way for a brighter, more inclusive future.

# Executive Summary

A Low Reserve Condition (LRC) occurs when AEMO considers that, for a particular period, there is a risk of insufficient capacity to meet expected energy demand, that there is a risk of load shedding to maintain Power System Security, or that there is a risk of an Essential System Service shortfall that compromises AEMO's ability to maintain Power System Security or Power System Reliability.

The purpose of this report is to examine any Low Reserve Condition Declaration (LRCD) events in the Wholesale Electricity Market (WEM) between 1 April and 30 September 2025. No LRCDs were issued during this period.
