

Gas Retail Initiatives – Additional logic added to responders r46

Version 1.0. Published - 24 Oct 2025

AEMO will apply the following validations to r46 East Coast Gas Market Participant Certification Responders resulting in the generation of a negative Message Acknowledgement where validation fails.

Fields	Transactions
<ul style="list-style-type: none"> • Max Length check 'LocationDescriptor' is not greater than 30 (r42 aseXML schema = 200) • Max Length check BuildingOrPropertyName is not greater than 30 (r46 aseXML schema = 50) • Max Length check FloorOrLevelType is not greater than 2 (r46 aseXML schema = 4) • Max Length check StreetName is not greater than 30 (r46 aseXML schema = 45) 	<ul style="list-style-type: none"> • CustomerDetailsNotification • LifeSupportNotification • NMIDiscoveryRequest • NMISTandingDataRequest • NMIDiscoveryResponse • NMISTandingDataResponse • ServiceOrderResponse • QLDGAS_ServiceOrderRequest • SITE_AmendMeterRouteDetails_Supply Point Information • SITE_AmendMeterRouteDetails_Address Information Change
